Navigating supporting LGBT+ children and young people: how do we create inclusive education environments?

The session will help professionals understand the experiences of LGBTQ+ young people in the U.K. and the evidence base for inclusion. We will cover language around identities and how we can support colleagues in their learning journey.

By the end of the session, you will have some steps to promote an inclusive culture within your setting so that every young person has a trusted adult they can talk to.

Adam Barks (He/him), Associate Director, Education Youth and Sport, Stonewall
