

TOGETHER

AGAINST THE FAR RIGHT

“There is no world that I want to live in where discrimination is acceptable for anything. No race, gender or class is superior to any other...this is why racism makes my blood boil”

Paloma Faith

***“Racism is hatred, stand with us
against it.”***

Christopher Eccleston

what is **TOGETHER?**

A new alliance of over 50+ campaigns, organisations and civil society groups, plus hundreds of individuals. We are coming together to bring a message of unity against the division of the far right.

We are mobilising and organising across the country, including a major demonstration in London on Sat 28 March.

why **TOGETHER** *needs you*

At a time when division is getting louder, we need voices of hope that cut through.

Your support helps make unity visible and inspire others to speak out.

TOGETHER we can shift the culture.

the **TOGETHER** *statement*

The voices of division in our country are growing louder. Those who preach division are becoming more confident. For the first time we face a far right party topping the polls, and far right protests on our streets mobilising the biggest numbers they ever have.

Their false promises seize on the very real economic problems facing ordinary people to scapegoat migrants, Muslims and refugees.

But we can change things **TOGETHER**. The voices of unity can grow stronger. We can show that strength lies in solidarity. That the change we need comes from us working **TOGETHER** for hope not despair, for unity not racism.

TOGETHER we can reject narratives of division and racism.

TOGETHER we can build solidarity across communities.

TOGETHER we can unite against the far right.

Our alliance of over 50+ organisations and hundreds of individuals is coming together to say enough is enough. We will be mobilising and organising across the country to bring a message of hope over fear, prior to holding a major demonstration in London on March 28th 2026. Join us and help us build an alliance for hope and unity.
