

**NASUWT motion to 2020 TUC LGBT+ Conference**

**P5 LGBTI solidarity – tackling worldwide discrimination**

Conference condemns the appalling treatment of lesbian, gay, bisexual, trans and intersex people across the globe, including the many countries in the world where LGBTI people face state-sanctioned discrimination, persecution and even death.

Conference is deeply concerned by the evidence that LGBTI teachers and pupils in schools and colleges in the UK and in other countries around the world are continuing to face homophobic, biphobic and transphobic prejudice, bullying and discrimination.

Conference calls on the TUC and affiliates to:

- i) lobby the UK Government to intensify efforts internationally to end human rights abuses against LGBTI people;
- ii) work with national and international partners and campaigners to press for the abolition of homophobic, transphobic and other legislation that criminalises homosexuality; and
- iii) continue to encourage and support the promotion of LGBTI equality in all education establishments.
