

Jersey Pay Update

Many thanks to all the members who gave feedback on the States Employment Board's (SEB)'s offer of 0.9%, fully consolidated with effect from 1 January 2021.

It was clear from the responses that whilst the vast majority of members were prepared to accept this offer in the current circumstances, there was also clear disappointment that the offer did not address the historic erosion of pay.

The NASUWT will now inform the SEB that the offer can be implemented, but the Union will also make it clear to the employer that the NASUWT and its members expect the erosion of pay to be addressed in future pay awards.
